

October 1, 2018

*****IMPORTANT ANNOUNCEMENTS*****

1) 2019 UCR Registration Period Delayed Indefinitely

The start of the 2019 UCR registration period is delayed until further notice while the Federal Motor Carrier Safety Administration (FMCSA) completes its rulemaking process on fee levels for 2019. Once the rulemaking is published, the UCR Board will issue a recommended enforcement date three (3) months from the start of the registration period.

The proposed fees for 2019 currently under review are based on a recommendation that was submitted by UCR to the FMCSA to reduce fees for carriers at all levels by 4.5% in 2019. This follows a 9.1% reduction this year.

Until further notice, fees cannot be accepted for the 2019 registration year. If received prior to the final rulemaking, fees will be returned to the entity that paid the fee.

Updates will be provided as the UCR Board become aware of relevant fee and registration information. We regret this inconvenience and appreciate your patience.

2) UCR Launches New National Registration System

The Unified Carrier Registration Plan (UCR) launched its new national registration system at www.ucr.gov.

The portal is now available to carriers and permit agents for remaining 2018 UCR registrations. The online portal is for commercial motor carriers and other businesses required to register and submit annual fees by the 2005 UCR Act. The federal government has not yet ruled on a proposal from UCR to establish fees for the 2019 registration year (see above).

For support or questions, please call 1-833-UCR-PLAN or send an email to helpdesk@ucr.gov.
